

STRONGER, SMARTER AND MORE CAPABLE THAN EVER.

In a world constantly asking us to compromise, we introduce a truck that simply refuses to. After 95 years of legendary truck building and millions of road-tested miles, the 2014 Silverado is new from its sculpted hood, through its new Double Cab and all the way to its available class-leading trailering¹ at the hitch. For 2014, Silverado combines proven power with unparalleled V-8 fuel economy,² and unsurpassed full-size pickup quietness with tough-as-nails ruggedness.

Silverado takes truck capability to a powerfully efficient place with the EcoTec3 engine family—our most advanced truck engines ever. The result is an available 5.3L V-8 generating 355 hp with 23 mpg hwy,2 for the best fuel efficiency of any V-8 pickup. You'll also find new unexpected solitude—there isn't a quieter full-size pickup on the road. It's raising the bar yet again for what the most dependable, longest-lasting full-size pickup can help you accomplish. We call it the 2014 Silverado. You'll call it your next truck.

¹With 2WD Double Cab, available 5.3L V-8 engine and Max Trailering Package (available fall 2013). 16 city/22 hwy mpg (4WD) with the optional 5.3L V-8 engine.

Preproduction model shown. Production models may vary.

SIT BACK AND RELAX: THERE ISN'T A QUIETER FULL-SIZE PICKUP.

The 2014 Silverado sets new standards for how functional, smart and quiet a truck can be. You won't find a quieter full-size pickup—thanks to sculpted exterior aerodynamics, inlaid and triple-seal doors, sound-absorbing materials, engine exhaust valving and even active noise cancellation on 6.2L V-8 models (available fall 2013). You'll also find that LT and LTZ models surround you with attractive, durable materials, like door trim panels built to look good and stand up to everyday wear and tear.

A / ALL-DAY COMFORT SEATS

Silverado is all about room. Choose bench or bucket seats for five or six passengers on Double Cab and Crew Cab models. New contoured seats provide lasting comfort. Resilient, dual-firmness foam ensures the seats retain their support over time, reducing driver and passenger fatigue. Optional leather-appointed, perforated heated and cooled front seating further heightens your comfort. Configure the driver seat the way you like it with 10-way power adjustments on LTZ (available on LT) models.

B / CENTER FLOOR CONSOLE STORAGE

The new available center floor console provides the ultimate flexibility with two cavernous storage bins, offering plenty of room for your laptop or other mobile devices. You'll also appreciate the convenience of easy "grab and go" storage pockets integrated into the doors so everything is at your fingertips.

C / REAR-SEAT ACCESS AND STORAGE

Rear-seat access, comfort and storage are improved with nearly 2 inches of extra leg room on Crew Cab models. Getting in and out of the rear seat of the new Double Cab is also easier in tight places, thanks to new forward-hinged rear doors. Both models feature bigger rear doors for easier entry and exit.

D / UPPER AND LOWER GLOVE BOXES

New glove boxes give you and fellow companions your own personal storage areas, all within easy reach.

POWER-SLIDING REAR WINDOW

The available power-sliding rear window now features a new defrost function to aid in visibility.

TECHNOLOGY THAT CONNECTS, PROTECTS AND ENTERTAINS.

A / DRIVER INFORMATION CENTER

(Shown on previous page)

Silverado's new available 4.2-inch diagonal color-enhanced Driver Information Center (DIC) offers improved gauge placement, making important information easy to comprehend at a glance. It displays your truck's vital stats like trailer brake settings and transmission fluid temperature and can be navigated with steering-wheel controls.

B / CONNECTIVITY

Depending on the model you choose, you'll never be far from a convenient power supply: up to six USB ports, four auxiliary power outlets and a new 110-volt outlet keep first-and second-row passengers connected and powered up.

C / NAVIGATION SYSTEM

Using voice or touch commands, Silverado's available Navigation System² uses the 8-inch diagonal center-mounted touch-screen to display 2-D or 3-D map graphics. To avoid trouble, NavTraffic³ (with 3-month trial of SiriusXM) incorporates real-time traffic and road conditions into your NAV screen, directing you toward the most efficient route.

D / COLOR TOUCH RADIO WITH MYLINK

Silverado offers the new available center-mounted 8-inch diagonal Color Touch Radio with MyLink.⁴ Gain hands-free, natural-voice-activated control of your communication choices. Bluetooth^{®5} wireless technology allows you to easily sync your phone with Silverado's audio system. Make phone calls, play music or navigate stored destinations just by saying the word. From the center-mounted full-color touch-screen, easily access the features you use most by customizing MyLink's home screen; no need to navigate a complicated menu. You can even pair up to 10 different devices in the truck.

E / FINGERTIP CONTROLS

Keep your eyes on the road while activating available Bluetooth phone functions using steering-wheel-mounted controls. The system links your compatible device to Silverado's audio system. You can also play audio, change songs, set the cruise control and activate the available heated steering wheel.

F / DRIVER ALERT PACKAGE

Unlike its competitors, Silverado offers the new available Driver Alert Package. It includes Forward Collision Alert (FCA) to warn you when you're rapidly approaching another vehicle and a collision is imminent. Lane Departure Warning (LDW) alerts you if you wander from your lane without using your turn signal. Both provide a visual alert and a choice of audible signals, or the new Safety Alert Driver Seat uses vibrations to warn you.

¹Not compatible with all devices. ²Map coverage available in the United States, Puerto Rico and Canada. ³If you subscribe after your trial period, *subscriptions are continuous until you call SiriusXM to cancel*. See SiriusXM Customer Agreement for complete terms and geographic limitations at siriusxm.com. Other fees and taxes will apply. All fees and programming subject to change. ⁴Full functionality requires compatible Bluetooth and smartphone. Some devices require USB connectivity. Data plan rates apply. ⁵Go to gmtotalconnect.com to find out which phones are compatible with the vehicle.

TURNS AIR INTO A POWERFUL ALLY.

For 2014, Silverado's rugged good looks combine style with functional design. Reduced wind noise and increased fuel efficiency¹ result from bold lines that glide from its new three-dimensional signature grille, up the lines of its angled, aerodynamic windshield and around the wheel wells to wrap the truck in a style uniquely Silverado.

DYNAMIC STYLING

The new Silverado was designed with the goal of commanding attention. This is accomplished with strong, muscular lines and distinctive curves. Even the fenders are sculpted aggressively outward to help protect the finish against chipping from debris thrown by the wheels.

A / PROJECTOR-BEAM LIGHTING

Silverado introduces a new available projector-beam headlamp fully integrated into the grille surround. The tightly controlled light pattern of projector-beam lamps increases their range and brightness, while reducing glare for oncoming vehicles.

B / OPTIMIZED AIRFLOW

The new dimensional grille helps manage and optimize airflow to capture a greater percentage of air to help cool the engine.

Now, only air necessary for cooling is directed into the engine compartment, while the rest flows smoothly around the truck. Silverado's styling also helps reduce wind noise to create a quieter cabin. The resulting lower drag coefficient contributes to Silverado's impressive fuel efficiency.¹

C / EASY-OPENING DOORS

The all-new Silverado Double Cab features forward-hinged rear doors to help improve access and reduce wind noise. To quiet the interior further, all Silverado models feature new triple door seals and an inlaid door design that fits the doors flush with the body.

D / AEROSPATS

What's an aerospat, you ask? They are new air deflectors positioned in front of the rear tires to direct air around them, helping reduce turbulence and drag. The result is a more efficient driving experience.

TAILGATE SPOILER

To reduce turbulence and improve aerodynamics, a new rear spoiler is seamlessly integrated into the top of the tailgate.

PUT 2108 LBS TO WORK.

The all-new Silverado offers a maximum payload of more than a ton¹ to solve your cargo challenges. The new available 6-foot, 6-inch cargo box on Crew Cab gives you nearly an extra foot of hauling capacity. Depending on the cab, 8-foot and 5-foot, 8-inch box configurations are also available.

REDESIGNED CARGO BOX

The pickup box floor is expertly crafted from strong and durable roll-formed steel. And simple, yet all-too-important elements like standard rail protectors at the top of the box and the tailgate improve damage resistance.

A / CORNERSTEP REAR BUMPER

We've made getting into the bed even easier. Integrated into the corners of both ends of the rear bumper, new available corner steps help you access the cargo box. Their deep nonslip treads easily accommodate even the largest steel-toed work boots.

B/HAND ASSISTS

New hand assists built into the top of the side rails—along with the corner steps—also help give you a boost into the bed.

C / LED UNDER-RAIL LIGHTS

New available LED under-rail box lights are conveniently positioned under each cargo box rail for easier loading and unloading at night, or when the box is enclosed by a tonneau cover.

D / MOVABLE TIE-DOWN HOOKS

Organize your cargo the way you want with four standard lower tie-downs and four available movable upper tie-down hooks. These four new patented, load-bearing upper tie-downs are rated at 250 pounds each and can be positioned in several places around the box depending on the cargo.

THE NEW STANDARD:

THE BEST V-8 FUEL ECONOMY OF ANY PICKUP.

The 2014 Silverado takes its legendary truck capability to a new place with the EcoTec3 engine family. Building on 58 years of proven V-8 experience and trillions of real-world miles produces an optional 5.3L V-8 with the best V-8 fuel efficiency of any pickup (in two-wheel and four-wheel drive), including some competitors' V-6s! Now, with Silverado's 5.3L V-8, you don't have to settle for a V-6.

The EcoTec3 engines—4.3L V-6 (coming summer 2013), 5.3L V-8 and 6.2L V-8 (coming fall 2013)—are the only engines using Direct Injection, Active Fuel Management and continuously Variable Valve Timing together to deliver robust power with ruthless fuel efficiency.² You get the best of

proven power and the dependability of a V-8 truck engine, with better efficiency than even some V-6 engines. It's a combination no one else can match.

Silverado's available 6.2L V-8 earns the coveted title of the most powerful engine in any light-duty pickup. Not to be outdone, the 4.3L V-6 easily generates the most torque of any standard V-6 in its class. At 285 hp and 305 lb-ft of torque, the 4.3L is the latest evolution of Silverado's do-more, haul-more and tow-more legacy. Translating all of this power and torque to the road is our invincible electronically controlled Hydra-Matic 6-speed automatic transmission.

¹EPA-estimated 16 city/23 hwy mpg (2WD), 16 city/22 hwy mpg (4WD). ²EPA-estimated 16 city/23 hwy mpg with the optional 5.3L V-8 engine (2WD). EPA estimates are not yet available for the 4.3L V-6 or the 6.2L V-8.

ADVANCED ENGINE TECHNOLOGIES.

PROVEN TRUCK PERFORMANCE.

A / VARIABLE VALVE TIMING (VVT)

For responsiveness in low-speed city driving and bold power for open-road passing or trailering, all Silverado engines feature continuously VVT. It monitors and adjusts valve open and close points for near-peak levels of torque across the entire range of engine speeds.

B / DIRECT INJECTION (DI)

For precise fuel distribution and fast, efficient combustion, all engines benefit from DI technology. The system moves the fuel into the combustion chamber. By injecting fuel at over 2000 psi, the air and fuel mix more completely.

C / ACTIVE FUEL MANAGEMENT (AFM)

By sensing load and demand, AFM improves efficiency by activating or deactivating cylinders (two on the V-6 and four on the V-8). Under demanding conditions, like high speeds or when loads require more power, the valve's switching mechanism is depressurized, re-engaging the cylinder and restoring full power—without you ever noticing the transition.

ROCK. SOLID.

FOUNDATION.

A / COIL-OVER-SHOCK FRONT SUSPENSION

This fully independent system is precisely tuned for improved handling. The front shock module is enhanced to increase road isolation in response to even small inputs. A thicker spring isolator and a higher spring rate produce a more controlled ride. The new 34-millimeter hollow stabilizer bar reduces weight without sacrificing vehicle stability.

B / CORROSION-RESISTANT DURALIFE BRAKE ROTORS

To reinvent the brake rotor, Chevy engineers used Ferritic Nitro-Carburizing (FNC) technology, which can help double rotor life. Duralife is a patented GM-exclusive corrosion protection process designed to prolong rotor life by hardening the rotor surface. It provides protection against rust to help prevent steering-wheel shudder during braking.

C / HYDROFORMED FRAME

Providing Silverado with the ultimate in a rock-solid foundation is a hydroformed, boxed, high-strength steel frame. This allows Silverado to haul more, tow more and tackle more rugged terrain while you and your companions are sitting comfortably.

D / ELECTRIC RACK-AND-PINION STEERING

The new electric variable-assist power rack-and-pinion steering system improves fuel efficiency¹ versus engine-powered systems. The variable assist is tuned to provide less assist at highway speeds for a solid on-center feel, and more assist for less steering effort when maneuvering in tight spaces.

E / STABILITY CONTROL

StabiliTrak, an electronic control system, helps improve stability by detecting and reducing loss of traction. Sensing when Silverado is not responding to your steering inputs, it adjusts engine speed and applies brake pressure to any wheel to help maintain directional control. For rollover mitigation, StabiliTrak anticipates a potential situation, rapidly applying brake pressure to help reduce lateral forces and the likelihood of a rollover.

F / HIGH LATERAL-RATE BODY MOUNTS

To connect the body to the frame are new high lateral-rate and redesigned hydraulic body mounts. You'll enjoy improved comfort and a smoother, quieter ride. The new shear-style mounts at the front of the cab dampen side-to-side vibrations, while the new hydraulic mounts at the rear of the cab dampen vertical vibrations.

G / AUTOMATIC LOCKING REAR DIFFERENTIAL

Available on 2WD and 4WD models, it directs power to the wheel with the most traction on loose gravel or slippery surfaces.

H / LARGER RING GEARS

Silverado's increased horsepower and torque call for an enhanced way to transmit power to the tires. That's why the V-8s feature an axle with a larger ring gear, and the redesigned rear axles are now stronger and beefier to handle the increased power capacity. This robust axle design also provides improved durability.

I/WIDER WHEELS

This is where every power, torque and handling innovation engineered into Silverado meets the terrain. That's why new half-inch-wider 17-, 18- and 20-inch wheels provide greater on-center feel and crisper control during subtle steering movements.

J / TUNED MULTILEAF REAR SPRINGS

Two-stage rear leaf springs provide the perfect balance between ride smoothness and hauling capability. They've also been tuned for improved ride and noise reduction as well as enhanced corrosion resistance.

CLASS-LEADING TOY-HAULING AND WORK-SHRINKING TOWING'. Silverado has always been built for trailering. And the all-new Silverado pulls even more. Its new available Max Trailering Package¹ offers a class-leading trailer weight rating of up to 12,000 lbs.²

MAX TRAILERING PACKAGE

Best-in-class towing results from an automatic locking rear differential, Z82 Trailering Package, heavy-duty 9.76-inch axle with 3.73 axle ratio, increased-capacity rear springs, integrated trailer brake controller, enhanced cooling system and recalibrated shock tuning for increased control.

A / TRAILER BRAKE CONTROLLER

For fingertip control and easy monitoring of your trailer brakes, Silverado offers an available integrated trailer brake controller. Now conveniently located to the left of the steering wheel, it displays the level of brake force or "gain" in the Driver Information Center.

B / TOW/HAUL MODE

To give you more power to accelerate when trailering or hauling heavy loads, Tow/Haul mode raises transmission upshift points. It also helps you slow Silverado by raising downshift points, using engine compression to slow your Silverado instead of merely braking.

TRAILER SWAY CONTROL

Keep both you and your trailer heading in the same direction, automatically. This system uses StabiliTrak sensors to detect a swaying trailer, and it applies both the vehicle's and the trailer's brakes (if properly equipped) to help bring it back in line.

C / REAR-VISION CAMERA SYSTEM

The center screen also serves as your monitor for the available Rear-Vision Camera System. Its dynamic grid lines provide the perfect target when backing up or hitching a trailer.

HILL START ASSIST

Sensors automatically detect when Silverado is on a 5 percent grade or more. It holds the brakes for up to 1.5 seconds or until the accelerator is pressed, preventing rollback. It's most effective when trailering, giving you time to switch from the brake to the accelerator.

AUTO GRADE BRAKING

When in Tow/Haul mode, this standard feature automatically senses when you want to slow your Silverado and engages a Grade Braking shift pattern to help maintain your desired speed.

A / TRAILER BRAKE CONTROLLER B / TOW/HAUL MODE R-VISION CAMERA SYSTEM

¹Available fall 2013. ²Silverado Double or Crew Cab 2WD with optional 6.2L EcoTec3 engine with Max Trailering Package (available fall 2013). Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your Chevrolet dealer for additional details.

RUGGED LUXURY. INTRODUCING THE NEW HIGH COUNTRY.

The all-new Silverado High Country (coming fall 2013) takes you to a higher altitude. Outside, you'll find 20-inch signature chrome wheels, halogen projector-beam headlamps, chrome power-folding heated mirrors, Front and Rear Park Assist, body-color front and rear bumpers, signature chrome grille, black recovery hooks, chrome bodyside moldings, a polished exhaust tip and movable upper cargo tie-downs.

PAVED ROADS ARE ONLY A SUGGESTION.

Z71 OFF-ROAD.

Keep going long after the pavement ends by choosing one of the Silverado Z71 Off-Road models. New for 2014 is Hill Descent Control, and also included are off-road jounce bumpers, a high-capacity air cleaner, underbody transfer case shield protection and monotube Rancho® shocks. Standard on Z71 models is a GM-exclusive automatic locking rear differential, which reacts in milliseconds to low-traction situations for improved forward motion. On wet, snowy or muddy terrain, Silverado takes power from the wheel with less grip and transfers it to the wheel with more traction to keep you moving.

IT'S ALL YOU.

Designed and engineered to the same standards as your Silverado, Chevy Accessories allow you to personalize your Silverado and range from functional enhancements like assist steps and bed management systems to stylish wheels and accents.

A / RECOVERY HOOKS

Add functionality and enhance the appearance of your Silverado with chrome or black recovery hooks.

B/LADDER RACK

Engineered to deliver strong load support, these rack systems and ladder racks by TracRac,® a division of Thule,® are geared specifically for all trade professionals. They are made of heavy-duty steel to be aerodynamic and quiet.

C / ASSIST STEPS

Make it easier to get into and out of your Silverado with these stylish steps. The 6-inch rectangular steps are aluminum and the 4-inch round steps are stainless steel. Both are rust-resistant and available in either chrome or black powder coat.

D / STATIONARY TOOLBOX

This durable, diamond-patterned aluminum toolbox handles up to 250 lbs.¹ It features a removable sliding tray with rubber mat, dual gas shocks for smooth operation and a one-touch latch. It mounts securely to the bed without drilling and has the Chevy bowtie logo. Not available with bed rug or any tonneau cover.

SOFT TONNEAU COVER

A roll-up soft folding tonneau with integrated cross bows shields cargo and allows full access to the bed. Not shown.

PREMIUM ALL-WEATHER FLOOR MATS

Premium all-weather floor mats are designed specifically for your Silverado to help collect rain, mud. snow and debris. Not shown.

ACCESSORY WHEELS

Stand out with a vast array of factoryengineered and -approved wheels from Chevy Accessories? All wheels feature a brilliant durable chrome finish and are available with matching lugs and Chevy logo center caps.

See gmaccessorieszone.com to learn about additional options, which are updated regularly. Or talk to your local Chevy dealer.

¹Cargo and load capacity limited by weight and distribution. ²Use only GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle's performance characteristics. For approved tire and wheel combinations and other important information, go to gmaccessorieszone.com or see your dealer for details.

ONSTAR -

The level of convenience and safety provided by the various features available through OnStar¹ offers powerfully simple connectivity and peace of mind. To place this capability at your fingertips, Silverado is available with a 6-month trial subscription to the OnStar Directions & Connections Plan. This plan includes:

COMMUNICATIONS • OnStar RemoteLink Mobile App² • Hands-Free Calling³ with voice-activated dialing

DIAGNOSTICS • OnStar Vehicle Diagnostics

NAVIGATION⁴ • OnStar eNAV with MapQuest.com • Turn-By-Turn Navigation⁴ • Destination Download

CONFIDENCE • Stolen Vehicle Assistance • Remote Door Unlock⁵ • Remote Horn and Lights • Crisis Assist • Emergency Services Link • Automatic Crash Response

Nisit onstar.com for coverage map, details and system limitations. On Star acts as a link to existing emergency service providers. Services vary with model and conditions. 2Available on select iPhone, Android and BlackBerry® devices. Services vary by phone, vehicle and conditions. Requires active On Star subscription. 3On Star Hands-Free Calling (HFC) requires HFC-enabled vehicle, existing On Star service contract and prepaid calling minutes and is not available in certain markets. Calls may be made to the U.S. and Canada. 4Requires Directions & Connections Plan. Not available in certain areas. Visit on star.com for coverage map, details and system limitations. Ability to locate stolen vehicles and remote door unlock success varies with conditions. Cargo and load capacity limited by weight and distribution. When properly equipped; includes weight of vehicle, passengers, cargo and equipment.

SILVERADO AXLE RATINGS AND PLOW WEIGHTS

FRONT GROSS AXLE WEIGHT RATING (FGAWR)
WITH SNOW PLOW PREP PACKAGE (4WD MODELS ONLY)

BODY	ENGINE	ENGINE TYPE	1500	
Regular Cab	4.3L	Gas	3950	
	5.3L	Gas	3950	
MAXIMUM PLOW W	/EIGHTS (4WD MODELS ONL	_Y)		
BODY	ENGINE	ENGINE TYPE	1500	
Regular Cab	4.3L	Gas	40/5004	
	5.31	Gas	40/5004	

¹Maximum payload capacity includes weight of driver, passengers, optional equipment and cargo. ²Maximum trailer weight ratings are calculated assuming a base vehicle, except for option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your Chevrolet dealer for additional details. ³Requires Max Trailering Package. Available fall 2013. See your Chevrolet dealer for more details. ⁴100/xxx=100 lbs maximum of permanently attached snow plow mounting hardware/xxx lbs maximum of removable snow plow blade and blade hardware. Maximum plow weights based on a vehicle with average manufacturer option content and 150 lbs each for driver and one additional front-seat occupant. Additional equipment and occupants will reduce maximum plow weight. Rear compensating weight may be required to maintain front axle weight below 65% of total vehicle weight when equipped with snow plow. Consult your snow plow manufacturer for specific compensating weight recommendation.

Even in vehicles equipped with an active, frontal gir bag. See your vehicle Owner's Manual and child safety seat instructions for more safety information.

IMPORTANT WORDS

THE BEST PICKUP COVERAGE IN AMERICA

For 2014, Silverado 1500 comes with the industry's best pickup coverage; it includes: 2-year/24,000-mile recommended scheduled maintenance, 3-year/36,000-mile bumper-to-bumper limited warranty and 5-year/100,000-mile powertrain limited warranty,² Roadside Assistance and Courtesy Transportation.

Starting with the owner orientation—and full tank of gas—you receive when you take possession of your Silverado to the 24-Hour Roadside Assistance, Courtesy Transportation and Travel Benefits, you receive a portfolio of owner privileges that lasts throughout your warranty. For expert product information, Roadside Assistance or other services, call 1-800-243-8872.

TRAVEL BENEFITS AND ROADSIDE ASSISTANCE Available around the clock: trip routing service, a program for reimbursement for trip interruption due to necessary warranty repairs, towing, flat tire change, jumpstarts and more for 5 years or 100,000 miles (whichever comes first).

COURTESY TRANSPORTATION Available at participating dealers: shuttle service, reimbursement of certain public transportation or fuel expenses for overnight warranty repairs, and courtesy rental for overnight work repairs. See your dealer for details.

CHEVROLET OWNER CENTER A complimentary, one-stop resource to enhance your Chevrolet ownership experience. It's easy to sign up. Just go to gm.com/gmownercenter/chevrolet.

SIRIUSXM SATELLITE RADIO

SiriusXM Satellite Radio3 is standard on all Silverado models (available on 1WT). It includes 3 trial months of service. SiriusXM Satellite Radio makes your drive come alive with commercial-free music channels from virtually every genre, artist-dedicated channels, live performances and more. Tune in to live play-by-play from the biggest sports, exclusive entertainment from top personalities, compelling talk, hilarious comedy, world-class news, local traffic and weather and family-friendly programming. Welcome to the world of satellite radio. Visit siriusxm.com for details.

CHEVROLET CERTIFIED SERVICE

instructions for more safety information.

Certified Service To help your Silverado live up to its performance promise, Chevrolet Certified Service—found exclusively at your Chevrolet dealer—is there. With all the engineering excellence in Silverado, GM-trained technicians have the expertise to care for all of it.

A NOTE ON CHILD SAFETY Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See the Owner's Manual and child safety seat

ADDITIONAL NOTES

TRAILERING AND OFF-ROAD INFORMATION Please carefully review the Owner's Manual for important safety information about trailering or off-road driving in your vehicle.

IMPORTANT WORDS ABOUT THIS CATALOG We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Chevrolet dealer for complete details. Chevrolet reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times. All competitive claims are based on the latest information available at the time of printing and the GM Large Pickup segment.

FLEET ORDERS Some standard content may be deleted with fleet orders. See dealer for details.

ENGINES Chevrolet products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in Chevrolet products may also be used in other GM makes and models.

CHEVROLET.COM See more of Silverado on our Web site: chevrolet.com/new2014silverado. More photos and information; hot links to related subjects; convenient dealer locator; pricing guide, spec out your own vehicle. Or call 1-800-950-CHEV.

AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New-Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.

NEW-VEHICLE LIMITED WARRANTY All Chevrolet light-duty vehicles come with a fully transferable, no-deductible 5-year/100,000-mile (whichever comes first) Powertrain Limited Warranty. GM vehicles registered in the U.S.A. are also covered for 3 years or 36,000 miles (whichever comes first). Coverage includes tires and towing to your nearest Chevrolet dealership. Repairs will be made to correct any vehicle defect and most warranty repairs will be made at no charge. In addition, rust-through corrosion will be covered for 6 years or 100,000 miles (whichever comes first). See dealer for details. The 2014 Silverado 1500 also offers a 2-year/24,000-mile maintenance plan.¹

ASSEMBLY Chevrolet vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolet vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

GMMOBILITY.COM (1-800-323-9935) GM Mobility offers financial assistance for eligible adaptive equipment to make automotive travel easier for persons with disabilities or special transportation needs. To learn more about special GM Mobility offers, visit gmmobility.com.

GMCARDMEMBERSERVICES.COM Did you know about the family of reward credit cards that can help you get a great deal on a new GM car, light-duty truck, SUV or crossover? With a GM reward card, you accrue earnings on every credit card purchase to use toward the purchase or lease of an eligible new GM vehicle. With three cards to choose from, you're sure to find one that suits you.

1 Covers only scheduled oil changes with filter, tire rotations and 27-point inspections, according to your new vehicle's recommended maintenance schedule for up to 2 years or 24,000 miles, whichever comes first. Does not include air filters. Maximum of 4 service events. Excludes Silverado 2500 and 3500 vehicles. See participating dealer for other restrictions and complete details. 2Whichever comes first. See dealer for limited warranty details. 3lf you subscribe after your trial period, subscriptions are continuous until you call SiriusXM to cancel. See SiriusXM Customer Agreement for complete terms at siriusxm.com. Other fees and taxes will apply. All fees and programming subject to change. For more information about NavTraffic, visit siriusxm.com/navtraffic. XM satellite service is available only to those in the 48 contiguous USA and DC.
